Moderate Positive Impact investments support specific positive impact characteristics; companies that incorporate various impact and ESG factors; and/or are a net benefit to society (although less than 50 percent of revenue comes from positive impact themes, there are other positive policies and procedures in place that are considered impactful). Neutral Impact investments maintain neutral posture toward ESG risk; have the potential to reach impact status in the future; have the possibility of incremental changes in corporate behavior in response to future shareholder resolutions; and/or do not violate any negative restrictions.
