## Fixed Income<sup>1</sup>

CCM's fixed income strategies invest in high-guality, well-researched bonds where we have confidence that the use of proceeds will have positive societal impacts and align with one or more of our 18 impact themes. Each of the bonds selected for a portfolio must meet our stringent impact and financial criteria. Within our fixed income portfolios, impact customization provides investors the opportunity to direct their capital to support specific geographies (also known as place-based impact investing) or impact themes.

## Impact by Theme

One investment can deliver multiple positive societal outcomes. The chart below shows impact metrics for all fixed income investments as of 06/30/2021 and how they align with one or more of 18 impact themes:

	• Affordable Health and Rehabilitation Care	2.7%	Healthy Communities	7.7%
	Affordable Housing	27.2%	Human Empowerment	4.0%
	• Arts, Culture, and the Creative Economy	0.5%	<ul> <li>Minority Advancement</li> </ul>	12.8%

Community Capital Management, Inc. (CCM) is an investment adviser registered with the Securities and Exchange Commission under the Investment Advisers Act of 1940. Registration as an investment adviser does not imply a certain level of skill or training. The verbal and written communications of an investment adviser provide you with information you need to determine whether to hire or retain the adviser. Past performance is not indicative of future results. CCM has distinct investment processes and procedures relating to the management of investment portfolios for institutional clients. The firm's strategies are customized, rather than model-based, and utilize an innovative approach to fixed income and equity by combining the positive outcomes of impact and environmental, social, and governance (ESG) investing with rigorous financial analysis, an inherent focus on risk management, and transparent research. Bonds are subject to interest rate risk and will decline in value as interest rates rise. Stocks will fluctuate in response to factors that may affect a single company, industry, sector, or the market as a whole and may perform worse than the market. A sustainable investment strategy which incorporates ESG criteria may result in lower or higher returns than an investment strategy that does not include such criteria. Any of the securities identified and described herein are for illustrative purposes only. Their selection was based upon non-performance-based objective criteria, including, but not limited to, the security's social and/or environmental attributes. It should not be assumed that the recommendations made in the future will be profitable or will equal the performance of the securities identified. Impact figures mentioned are approximate values.
