

CRA Investment Solutions for Your Bank

The **Community Reinvestment Act, or CRA**, became law in 1977 and remains one of the seminal pieces of legislation to address systemic inequities in access to credit. The CRA encourages banks to help meet the credit needs of the entire community in which they do business, with a particular focus on low- and moderate-income (LMI) communities, consistent with safe and sound operations. The last significant interagency revision to the CRA regulations occurred in 1995.¹ In May 2022, the Agencies issued a joint proposal to strengthen and modernize Community Reinvestment Act (CRA) regulations with comments accepted until August 2022. While we wait to see what changes may take place with the CRA, we continue to work with banks of all sizes nationwide on CRA investment solutions.
