

CCM Alternative Income Fund (CCMNX)

As of 09/30/2020

Why Invest

The Fund seeks to provide a total return generated primarily from income and secondarily from capital appreciation. The Fund invests in a portfolio of well-researched securities across multiple asset classes and hedges the portfolio's stock and bond market-related risk. Security selection focuses on relative value and incorporates a multi-dimensional approach to assessing impact. For investment-grade bonds, the team looks for positively impactful use of proceeds. For stocks, the team considers environmental, social, and governance factors.

Performance for periods greater than 1-year are annualized. Performance quoted is past performance and does not guarantee future results. Current performance may be lower or higher than the performance data quoted. An investor's investment return and principal value will fluctuate, so that your share when redeemed may be worth more or less than your initial cost. To obtain the most recent month-end standardized performance, call 877-272-1977. Performance reflects fee waivers, which if not in effect, would have decreased performance. The Advisor has contractually agreed to waive fees and reimburse expenses until September 2020 so that Total Annual Fund Operating Expenses After Waivers and Expense Reimbursements will not exceed 1.85% of the Fund's average daily net assets (total annual fund operating expenses are 2.01%). The Advisor may not recoup waived fees and reimbursed expenses.
