If one of the primary agencies does not rate a security, the lowest rating is used. If none of the primary agencies rate a security, CCM uses the median of all other available nationally recognized statistical rating organization ("other NRSROs"). If less than three other NRSROs do not rate a security, the lowest rating is used. NRSROs are registered with the SEC. ³Effective Duration: a calculation for bonds with embedded options; considers that expected cash flows will fluctuate as interest rates change. ⁴Turnover for the trailing 12-months as of 03/31/25. ⁵Yield to Worst calculates the lowest possible yield that can be received on a bond with an early retirement provision.

The CIB Fund is an impact bond fund offering customization, which allows shareholders meeting minimum requirements to tailor their capital to support specific geographies, impact themes, or impact initiatives, a benefit accompanied by customized impact reporting.

CCM invests in securities that we consider to be fossil fuel free. We may invest in a bond whose use of proceeds will be used to finance activities or projects in clean and renewable energy, or other activities that may contribute to the transition to a more sustainable economy, even if the issuer's revenue or profits are partially derived from the fossil fuel sector.
