Customizable Impact and Reporting

Our unique customizable fixed income impact strategy allows clients meeting minimum requirements to align their investment capital in one of three ways:

Impact by Geography

When a client selects impact by geography, the investments will be in their targeted area(s), which can be as narrowly defined as a county, and support at least one or more of CCM's impact themes.

or

Impact by Theme

When a client selects customization by impact theme, the investment(s) will support those themes and can be located nationwide.

or

Impact by Initiative

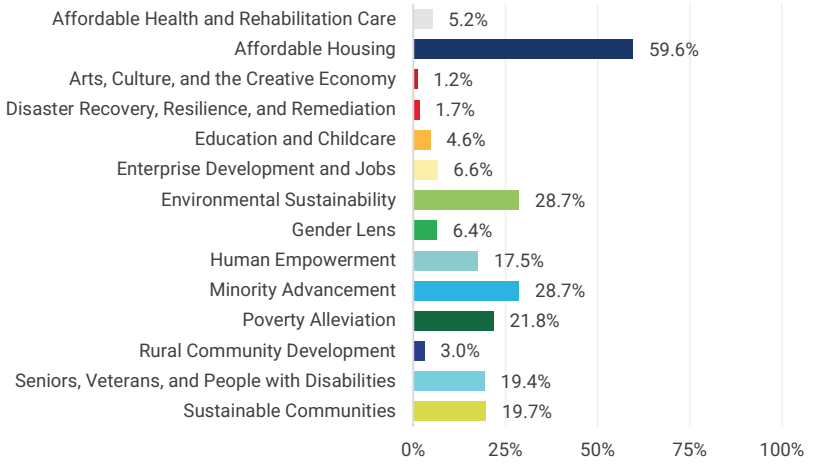

When a client selects customization by impact initiative, the investments will specifically support the goals of the respective initiative nationwide.

Minority CARES

First-Time Homebuyer

Impact by Theme*

The chart shows current fixed income holdings and their alignment with our impact themes as of 09/30/26. One investment can align with multiple impact themes. Percentages may exceed 100%.

Impact by Initiative

The data below shows cumulative impact invested in our two impact initiatives on behalf of clients from their respective inception dates to 09/30/26.

The map shows current fixed income holdings by state as of 09/30/26. Holdings in the fixed income holdings that are not state specific fall in National/Multiple States. Impact by geography is calculated using the current face value of individual securities (original par value minus any principal paydowns, if applicable) and reflects the locations positively impacted within the fixed income holdings. Securities classified as having national exposure include those without specific impact locations provided. Percentages are based on total portfolio exposure, including cash holdings.

- < $1M
- $1M to $5M
- $5M to $10M
- $10M to $20M
- $20M+

**Impact by theme is calculated using the current face value of individual securities (original par value minus any principal paydowns, if applicable). Each security's contribution is counted in the impact themes it supports. Percentages are based on total portfolio exposure, including cash holdings. Impact-related information reflects capital allocated to securities that CCM has determined align with its impact initiatives. Such information does not measure, verify, or guarantee the achievement of social or environmental outcomes.*

Community Capital Management, LLC (CCM) is an investment adviser registered with the Securities and Exchange Commission under the Investment Advisers Act of 1940. Registration as an investment adviser does not imply a certain level of skill or training. The verbal and written communications of an investment adviser provide you with information you need to determine whether to hire or retain the adviser. Past performance is not indicative of future results. Any performance information, case studies, or examples identified and described are for illustrative purposes only and do not guarantee future results or outcomes. CCM has distinct investment processes and procedures relating to the management of investment portfolios for institutional clients. The firm's strategies are customized, rather than model-based, and bring an innovative approach to fixed income investing, integrating impact-driven outcomes with disciplined financial analysis, risk management, and transparent research. Bonds are subject to interest rate risk and will decline in value as interest rates rise. Different types of investments involve varying degrees of risk, and there can be no assurance that any specific investment will either be suitable or profitable for a client's investment portfolio. Investments selected based on impact criteria may result in a portfolio that is less diversified and may be subject to greater volatility or risk. There is no guarantee that any impact objectives will be achieved, and measurement of impact may be subject to limitations or inaccuracies. Certain securities or strategies may be subject to liquidity risk, and the universe of eligible investments may be more limited than in non-impact strategies. An investment strategy that incorporates impact criteria may result in lower or higher returns than an investment strategy that does not include such criteria.
